Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 11-27 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Redekop (6478674, cited by applicant).

Redekop clearly anticipates claims 11-27, because Applicant filed a statement (dated 12/16/2003) in accordance with 37 CFR 1.607 identifying claims 11-27 as corresponding exactly or substantially to issued claims 1-17 of the prior art, which are fully supported by the prior art's disclosure.

Allowable Subject Matter

3. Claims 1-10 are allowed (same claims as in parent application, now patent no. 6511374).

Response to Arguments

4. Applicant's arguments with respect to claims 1-27 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's attention is directed to the new rules for provoking Interference, if that is the purpose of copying Redelp '674 claims, see 41.202 attached:

§ 41.202 Suggesting an interference.

- (a) *Applicant* . An applicant, including a reissue applicant, may suggest an interference with another application or a patent. The suggestion must:
 - (1) Provide sufficient information to identify the application or patent with which the applicant seeks an interference,
 - (2) Identify all claims the applicant believes interfere, propose one or more counts, and show how the claims correspond to one or more counts,
 - (3) For each count, provide a claim chart comparing at least one claim of each party corresponding to the count and show why the claims interfere within the meaning of § 41.203(a),
 - (4) Explain in detail why the applicant will prevail on priority,
 - (5) If a claim has been added or amended to provoke an interference, provide a claim chart showing the written description for each claim in the applicant's specification, and
 - (6) For each constructive reduction to practice for which the applicant wishes to be accorded benefit, provide a chart showing where the disclosure provides a constructive reduction to practice within the scope of the interfering subject matter.

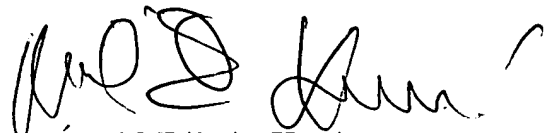

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See form 892.
